

Maths

There are some very tall skyscrapers in London. Can you research and find the height of some of the famous landmarks?

Try to plot these on a bar graph. Which is the tallest?

English

The Queen is one of the residents in London, in the famous Buckingham Palace. Write a letter to her persuading her to come and visit Churchwood for the day!

DT

There are lots of interesting London landmarks! From the London Eye to the houses of parliament to the unique skyscrapers. Can you make a model of one of these landmarks?

London Homework

Year 5-Term 5

Please complete at least 2 of these, of your child's choice, by the Friday 17th May

Geography

Within London there are LOTS of different maps used, including tourist maps, road maps and tube maps. Could you research a part of London you are interested in and then create your own map?

Surprise me!

Don't like any of the choices? Choose a different way to demonstrate your learning on the topic of London!

History

How has London changed over time? This city only became our capital in the 12th Century. What was it like before then? Was there always so many people living there?

Research the history of London and then create a fact file or poster on how London has changed over time.

This may be a good website to start your research:
