

Reading Challenge

At Churchwood, we are focusing on reading and encouraging all children to read with an adult regularly at home – aiming for **at least 5 times a week**.

The number of times each child has read at home will be counted and each Friday the class with the highest score will win Boris and Bella, our reading bears.

In Year 2, children will also be rewarded with a chance to read with Diesel the dog!

Learn through Geography

Think about a journey you often make.

Make a map of your journey, showing some of the things you see along the way.

Learn through Design and Technology

Design and make a model of a vehicle for a book character of your choice.

What sorts of functions would the vehicle have?

What special features would you include for them and why?

In response to the recent Parent Survey, homework at Churchwood is changing!

Here are some enrichment activities that you can do with your child at home, to support their learning this term. Please help your child complete **any two activities** of their choice. Children can bring their projects into school by **Monday 15th October** (however, projects are welcome in before then, as and when they are completed).

There will be spellings handed out for your child to practise daily, and their usual daily reading. Please come and see me if you have any queries.

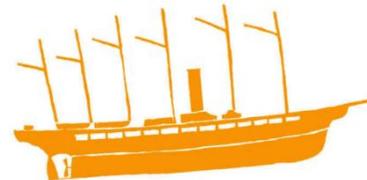

VROOOM!

Homework for Year 2, Term 1

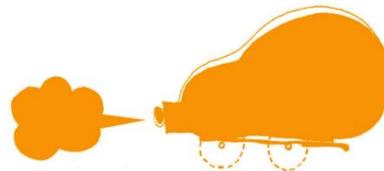

Learn through Science

Can you design and build a model boat from cardboard that's strong enough to float, even with a weight on board?

OR design and make a balloon-powered car using just a balloon, a plastic cup, straws, thread and rubber bands.

We can race your model cars in class!

Learn through Computing

Research our topic using websites such as: <https://thekidshouldseethis.com/post/an-animated-history-of-transportation-through-the-centuries> or

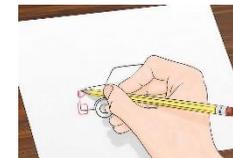

<https://www.dkfindout.com/uk/transport/>

Write a quiz for your friends based on what you have found out.

Learn through Art

Choose a type of vehicle. Draw a picture of that vehicle from the past. Draw a picture of that vehicle in the present day.

How many differences can you spot? Challenge your friends to spot all the differences.

Learn through History

Talk to your parents and grandparents (or even great-grandparents!) about modes of transport when they were children.

Make a booklet of facts or a poster showing what you have learnt.
